Professional Aesthetic Systems

# Who We Are

Vovibe Aesthetics is a UK based supplier of advanced aesthetic systems, supporting clinics, beauty professionals, and new business startups across the country.

We specialise in providing high-performance, non-medical devices designed to deliver consistent results and enhance service offerings.

Our focus is on quality, reliability, and long-term business growth, ensuring every client has the tools needed to succeed in a competitive market.

From initial consultation to ongoing support, we work closely with our partners to create scalable solutions.

At Vovibe, we are committed to helping clinics elevate their services and grow with confidence.

# Why Clinics Choose Vovibe

## PREMIUM AESTHETIC SYSTEMS

Vovibe Aesthetics provides **top-tier aesthetic systems** that enable clinics to deliver high-quality treatments. Our products meet the evolving needs of modern practices, ensuring client satisfaction and loyalty.

## EASY-TO-USE TECHNOLOGY

Our systems are designed with simplicity, efficiency, and real world clinic use in mind, allowing practitioners to focus fully on delivering a high quality client experience.

Each platform features an intuitive interface and streamlined controls, reducing the learning curve and making day-to-day operation smooth and reliable. With minimal training required, clinics can quickly integrate new services and begin generating results without unnecessary complexity.

Engineered for consistent performance, our systems support efficient workflows, helping practitioners maximise productivity while maintaining a professional standard of service.

# Velyra-Lift 6-in-1 System

The Velyra-Lift 6-in-1 System is a versatile face and body platform designed to support a wide range of high demand aesthetic services within a single, streamlined solution.

Engineered for performance and flexibility, it combines multiple technologies and interchangeable treatment options, allowing clinics to expand their service offering without the need for additional equipment.

Featuring an intuitive touchscreen interface, adjustable energy settings, and precision-controlled output, the system ensures consistent and efficient operation across all treatment modes.

Its multi-handle configuration and range of depth targeted cartridges enable tailored treatments for different areas of the face and body. Built with advanced cooling and stability systems, it supports comfort, reliability, and smooth day-to-day use.

# Silk-Wave Diode Systems

## **SILK-WAVE 1800W** High-performance system

The Silk-Wave 1800W offers **exceptional efficiency** for hair removal treatments in clinics.

## **SILK-WAVE 1200W** Compact design

The Silk-Wave 1200W combines **power and ease** of use for effective hair removal solutions.

# Body Contouring Systems

## **VELYRA-SHAPE** Body contouring

This image showcases the **Velyra-Shape**, designed for effective body contouring treatments.

## **ALL-VERA EMS** Muscle toning

This image highlights the **All-Vera EMS**, perfect for enhancing body definition effectively.

# Payment Options

Explore our flexible financing solutions designed to support your investment in advanced aesthetic systems without placing pressure on your cash flow.

We offer Tailored Payment Plans from 25% Deposit to Finance Plans that allow you to spread the cost into manageable monthly instalments, making it easier to upgrade your Clinic and introduce high demand services with confidence.

With simple approval processes and clear, fixed terms, you can plan your business growth effectively while maintaining financial stability.

Our finance options are built to help you start generating revenue from day one, turning your investment into a scalable opportunity for long-term success and increased client demand.

WE HAVE A FULL RANGE OF DEVICES

# Finance Options

Flexible finance options are available, allowing you to spread the cost into manageable monthly payments while preserving cash flow.

Start generating revenue immediately, with finance structured to support clinic growth and maximise return on investment from day one.

Start from £79/month + VAT with flexible finance options.

Spread the cost over 12–60 months to suit your budget and business goals.

For example, a £6,000 system could cost approximately £120/month, while a £12,000 system may be around £240/month.

Fast approvals, minimal upfront cost, and immediate ROI potential for growing clinics.

T&C's Apply: Finance subject to status. UK residents only. Terms 12–60 months. If approved, agreement issued and funds released to proceed with purchase.

# Return On Investment

Understanding your return on investment is essential when introducing new treatments into your clinic.

With an average treatment price of £100 and just three clients per week, you could generate approximately £1,200 in monthly revenue.

As demand grows and your client base expands, this figure can increase significantly, turning your system into a consistent income-generating asset.

By offering high-demand services, clinics have the potential to cover their monthly investment quickly while creating long term profitability.

This scalable model allows you to maximise each treatment slot, improve client retention, and build a stronger, more sustainable business with confidence.

# What You Get

## TRAINING

We provide comprehensive training designed to ensure your team can confidently and effectively operate all systems from day one.

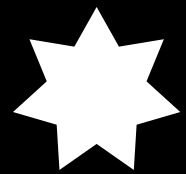

Our training focuses on practical, hands-on guidance, covering machine setup, operation, and day-to-day use within a clinical environment.

With clear instructions and user friendly protocols, practitioners can quickly understand each system's functionality and integrate it into their services with ease.

This structured approach minimises downtime and supports consistent performance across all treatments.

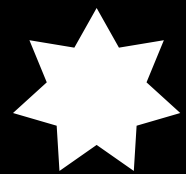

By prioritising operational confidence and efficiency, our training helps clinics deliver a professional experience, maintain high standards, and maximise the full potential of their equipment from the very beginning.
